BOOTSTRAP | MATERIAL UI | CANVAS

## LANGUAGES

- ENGLISH - (Advanced)
- RUSSIAN - (Native)
- UKRAINIAN - (Native)
- Spanish - (Pre-Intermediate)

## ABOUT ME

I'm a front end developer with experience in creating SPA using React, TypeScript, CSS, HTML, Redux. In order to broaden the range of projects to which I can add value, I plan to expand my current skill set to include additional frameworks such as Vue and Angular. I am a hard worker, eager to learn and a skilled communicator who thrives working in a team environment.

## WORK EXPERIENCE

### FRONTEND DEVELOPER

(Part-time)

January 2021 - Present

- Played a key role in a team that created a javascript education and training app, and was responsible, among other things, for creating login pages, backend requests, modal windows and user-friendly interfaces.
- Created JS Game using firebase database.
- Created several CSS layouts.
- Responsible for code checking with Unit Tests, applying Storybook and Postman.

## EDUCATION

### IT-INCUBATOR
